PROFESSIONAL SUMMARY

Aspiring full-stack developer with a solid foundation in web development and hands-on experience in building end-to-end web applications. Proficient in modern front-end and back-end technologies with a strong understanding of responsive design and full-stack project management. Dedicated to continuous learning and eager to bring a positive impact to a team.

PROJECTS

Django E-Commerce website

Developed an e-commerce application using Django, integrated secure user authentication..A fully functional e-commerce website with features like product listing, shopping cart, and user authentication

Django-CRM

This CRM application is a web-based system built using Django that enables efficient management of customer data. Designed with CRUD (Create, Read, Update, Delete) functionality

Portfolio Website

This portfolio is a responsive React-based website designed to showcase my skills and projects as a full-stack developer. It features dynamic navigation, smooth scrolling, and modular React components that make updates and additions easy.
